Marine Fox

For Vectrex

By Mountain Goat Entertainment

2015

Marine Fox was inspired by the old arcade and Atari classic Solar Fox.

In Marine Fox you are Commander Ariel Fox piloting the submarine Medusa.

Your goal is to gather up all the sea crystals.

The Sentinels have sent sharks that try to catch you. You must avoid them.

Advance through the levels to see faster and more sharks patrolling the seas.

Keep an eye out for your Fox insignia to get power-ups:

- Extra speed for the Medusa
- Shield against the sharks
- Slowing down the sharks
- Clearing a whole row of crystals
- Resetting the bonus timer to maximum

Controls:

- Joystick left/right for turning the Medusa. Once the Medusa starts moving it does not stop.
- Alternatively the Medusa can be controller by Buttons 1 and 2.
- You can pause the game with Button 4.
- Should you run out of lives you can restart the game with Button 1.

Gather up all the crystals before the bonus bar runs out and you get extra points.

The game screen:

At the starting location in the center, you are safe. Anywhere else watch out or you can become shark food.

Enjoy the game!
